

A black and white photograph of two mountain goats standing on a dark, layered rock face. The goats are positioned in the upper right quadrant of the image. The rock face shows distinct horizontal and vertical geological strata. The lighting is dramatic, highlighting the texture of the goats' fur and the ruggedness of the rock.

CG Absolute Return Fund

Overview

cgam

CG Absolute Return Fund Overview

Investment Objective

- To achieve **cost-effective, long-term absolute returns** via a global portfolio of equities, bonds and commodities
- Simple low-cost approach, no derivatives, no gearing, no short selling
- The fund is actively managed, without reference to a benchmark

Fees and Structure

- Size: **£1.0bn** (launched in May 2016)
- Management Fee: **0.35%** | Total Expense Ratio: 0.45%
- Daily priced Irish UCITS

Investor Profile

The fund has a broad range of investors who typically share the following characteristics:

- A long term investment horizon
- An aversion to significant loss over the short term
- A desire to generate returns ahead of inflation over the longer term
- A focus on GBP returns

CG Asset Management Overview

2001

Founded

Founded in 2001 by Peter Spiller, former Chief Investment Officer and Chief Strategist of Cazenove

£3.6bn

AUM

£3.6bn in assets under management

2

Strategies

Manages two strategies, absolute return and real return, across five funds

11

Employees

Team of 11, based in London

257x

Return

Low cost offering, with fee reductions regularly reviewed

2

Down Years

Capital Gearing Trust ("CGT") has returned 257x since 1982, with only two down years

CGAM in partnership with our clients

What makes us different?

What does that mean for our clients?

The firm's founding principles

1. The client comes first
2. Don't be greedy
3. Have fun

In turn these principles mean that:

- We have and will close funds to **protect investors**
- We continuously strive to **lower fees**, even on closed funds
- We have **low staff turnover**

Employee owned

- Majority owned by an Employee Ownership Trust which means we will remain independent
- All portfolio managers are significant shareholders in CGAM

The right incentives

- A significant majority of our own capital is invested in our funds
- Our interests are directly aligned with our clients' interests

Principles

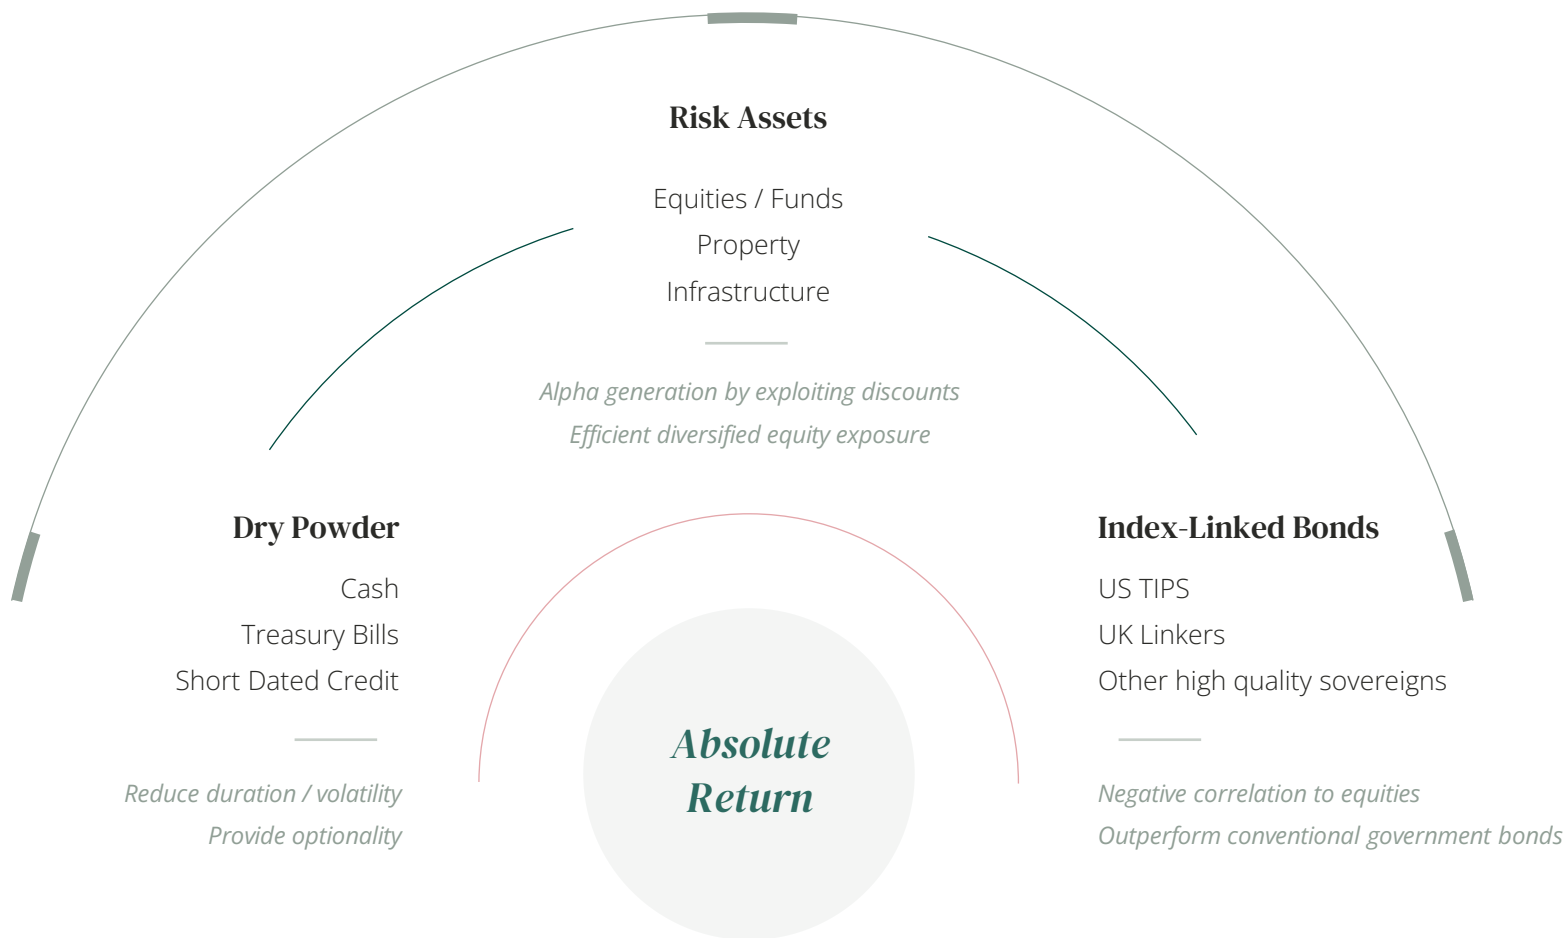

5 inputs drive our asset allocation, underpinned by a focus on duration

Dynamic asset allocation that responds to the business cycle

3 Core Asset Allocation Pillars

Index-Linked bonds are a fundamental component of our asset allocation

Protection against financial repression

Only asset that we believe is likely to deliver protection

Negative correlation with risk assets

Particularly overseas against sterling denominated risk assets

Historic outperformance vs nominal bonds

Such outperformance likely to persist into future

Inflation as greatest risk to investor wealth

Against which equities are only a partial hedge

Significant risk of inflation persistence

Historical record is not supportive of a swift return to target

Annual Returns % of a UK Stocks and TIPS – unhedged in GBP (1998 – 2022)

CG Absolute Return Fund

Positioning and Returns

cgam

Positioning is defensive, with a focus on inflation protection

CGAR Asset Allocation February 2024

Contribution by Asset Class LTM February 2024

Source: CGAM, Bloomberg Finance L.P., Northern Trust

Infrastructure assets have faced headwinds in the last year

CGAR Risk Assets – Geographic Exposure and Asset Exposure

Alternatives include: Loan Funds, HY, PE & Hedge Funds

Contribution by Risk Assets LTM February 2024

...but fundamentals are attractive, with more scope for active engagement

Investment Companies Premium (+) / Discount (-) %

Infrastructure – Implied net real returns¹

¹Returns are schematic, net of fees and at recent prices. Returns are based on sensitivities from company and CGAM estimates of inflation and quality of earning. Any decline in power prices is through the model, ignores convexity and assumes a constant distribution of subsidised to merchant cashflows

Both equity and bond portfolios have contributed to outperformance

CGAR Risk Assets Returns Performance to February 2024¹

CGAR Bonds Only Returns Performance to February 2024¹

¹Risk Assets include equities, property, alternatives and gold. Bonds include credit and sovereign bonds (excluding T-Bills and cash)
Source: Bloomberg Finance L.P., Northern Trust

CGAR has outperformed comparators on an absolute and risk adjusted basis

CGAR vs. Comparators: Total Returns (since inception) to February 2024¹

1. The MSCI PIMFA (Private Investor Conservative Index) aims to represent the investment strategy of a UK private client adopting a conservative approach to their investment
Source: Bloomberg Finance L.P., Northern Trust

Positioning and Returns

Returns have come with low correlation to equity & bond markets, and excellent risk adjusted performance

Sharpe Ratio & Volatility (%) vs. Major Indices

Source: Bloomberg Finance L.P, risk statistics per Bloomberg standard definitions

Currency exposure and liquidity are actively managed

Currency Exposure¹

Time to Liquidation (days)²

Duration and Yield³

| | Weight | Duration (Yrs) | Yield (%) | Rating ⁴ |
|---------------------|--------|----------------|-----------|---------------------|
| Cash & T-bills | 8% | 0.2 | 3.1 | AA- |
| I/L Bonds | 52% | 5.7 | 4.2 / 1.2 | AAA |
| Corp. Bonds | 10% | 2.1 | 6.5 | BBB+ |
| Risk Assets (HY) | 1% | 1.7 | 9.0 | B |
| Risk Assets (Other) | 29% | n.a | 4.9 | n.a. |
| CGAR | 100% | 4.4 | 4.6 | A- |

1. Currency exposure is estimated using CGAM look through analysis of Bloomberg, Numis and Company data

2. Assumes 25% average daily volume participation rate

3. Duration refers to Option Adjusted Duration, Yield refers to yield to maturity for fixed income with real yield also shown for index-linked and dividend yield for other risk assets which excludes high yield bonds

4. Bloomberg composite rating, Moody's weighted average rating for Cash & T-Bills

Positioning and Returns

Changes to asset allocation tend to be modest over the short term but can be fundamental over the long term

CGAR Asset Allocation – 2016 to 2024

Current Focus Areas

Real Interest Rates

Developed market issuers offering risk free inflation beating returns

US TIPS are offering attractive real yields

UK index-linked are offering an attractive opportunity for portfolio construction

Japanese Equities

The Yen is offering exceptional value, making Japanese corporates highly competitive and driving strong earnings growth

Investment Trusts

Average discounts have widened to levels last seen since the financial crisis and there is scope for active engagement with boards

Infrastructure

Defensively positioned infrastructure assets with inflation linked cashflows are offering attractive real returns

CG Absolute Return Fund

Approach to Responsible Investing

cgam

The principles underpinning our approach to responsible investment

Be honest

No greenwashing, no PR-led initiatives, no jargon. We believe in an accurate presentation of our activities not a marketing campaign.

One firm, one rule

Our standards apply to all the funds we advise. We do not have ethical and by implication unethical funds.

Ethics, not mathematics

There is no formula that can be applied in a uniform way to every situation. We emphasise judgement over simplistic third party ESG scoring systems.

Don't disinvest, engage

When investors have the influence to effect change it is most valuable to encourage positive transition rather than blanket disinvestment.

Targeted

As a small firm we must focus our efforts where they will have most impact rather than taking a generalist approach.

Driven by governance

Investors have multiple direct mechanisms to influence governance, so we primarily focus governance even when the ultimate objective is positive social or environmental change.

Integration, not separation

The entire team is collectively responsible for stewardship activities with the ultimate responsibility lying with the chief executive. We do not have a standalone responsible investment team.

Act, with humility

Every action results in both intended and unintended consequences. Reflect deeply on the risk that good intentions can lead to bad outcomes.

ESG integration by asset class

1. Direct Government Securities

A majority of the assets held by the funds are invested in direct holdings of securities issues by governments including bonds, bills and cash. As our capacity to influence governments is extremely limited, our primary approach is to exclude sovereigns that do not maintain high ESG standards.

In order to help access these criteria we consider indices compiled by a range of NGOs and require sovereigns, at a minimum, to achieve strong rankings in at least four out of five of these criteria. In addition to using third party indices we also overlay our own subjective assessments which typically leads to material additional exclusions.

| Index | Criteria |
|---|--|
| World Bank governance effectiveness index | Top quartile |
| World press freedom index | Good or satisfactory |
| Global freedom score | Free rating |
| UN human development index | Very high human development rank |
| Net zero by 2025 statement | Statement of intent by 2050 or earlier |

2. Direct Corporate Credit and Preference Shares

The funds hold small quantities of direct credit and preference share holdings issues by corporate issuers. Given our small participation in the market and therefore limited influence, our primary approach is to exclude corporate issuers who are primarily engaged in the following activities:

| Exclusion Area | Exclusion sub-Area | Threshold |
|------------------------------|---|-----------|
| Controversial weapons | Anti-personnel mines, cluster munitions, chemical weapons | 0% |
| Tobacco | Manufacture or marketing | <5% |
| Thermal Coal | Coal mining or coal-based energy production | <5% |
| Oil sands or arctic drilling | Production | <5% |
| Gambling | Services | <5% |
| Adult entertainment | Production or broadcasting | <5% |
| Firearms | Manufacture | <5% |
| Predatory lending | Services | <5% |

ESG integration by asset class

3. Listed Closed-Ended Funds, Investment Trust, REITs and Property Companies

CGAM has a long history of active engagement in the London market for listed closed ended funds and other collective investment companies including REITs. In this priority area for engagement we seek to achieve positive transition so do not employ systematic exclusions.

Listed investment companies are fundamentally different to operating companies and typically have the following features:

- They hold a broad portfolio of securities on behalf of their shareholders;
- External investment managers rather than executive management teams;
- No employees or customers; and
- Have a board of directors to represent shareholder interests and concerns.

Given the prominent role that directors play in investment companies CGAM frequently undertakes activities that aim to influence boards and ultimately improve governance. The techniques employed vary based on the specific scenario but include those listed here (see box).

As well as engagement in the sector, CGAM places particular weight on providing primary capital to high impact investment companies with an environmental or social focus. In our assessment by providing primary capital, via IPO sponsorship or follow on fund raisings, investors have a greater impact than by simply trading securities in the secondary market.

| Activist Engagement Technique | Frequency of Employment |
|---|-------------------------|
| Management Engagement | Continuous |
| Board Engagement | Continuous |
| Shareholder co-ordination | Frequent |
| Voting against significant resolutions | Frequent |
| Raising ESG matters in fund reporting | Frequent |
| Amplification through press engagement | Periodic |
| Replacing directors to improve governance | Periodic |
| Publishing open letters | Periodic |
| Publishing research incorporating ESG views | Periodic |
| Threatening to requisitioning meetings | Periodic |

4. Exchange Traded Funds ('ETFs')

Funds advised by CGAM hold relatively small quantities of exchange traded funds. ETFs are listed collective funds which typically track an index and provide low cost, efficient access to a broad portfolios of securities. CGAM does engage directly with our approved panel of ETF providers to encourage improved stewardship standards. However our capacity for effective engagement is limited, we therefore consider exclusions where there are suitable ETFs available. Typically this is via ESG screened ETFs which is a dynamic and growing sector. The programme of identifying and conducting due diligence on these products is ongoing.
